

ABOUT US

Global Tool Control, founded by aviation and oil & gas experts, delivers tailored tool control systems to enhance safety, efficiency, and accountability. Our mission is to provide innovative, accessible solutions for businesses of all sizes. Contact us to learn how we can optimize your operations with custom, high-quality tool control solutions.

OUR SOLUTIONS

Custom Shop Tool Kits

Get the perfect tool kits for your needs, with CNC-cut, two-tone shadow foam complete with task-specific tools.

Custom Travel Tool Kits

Durable Pelican or SnapOn cases with lightweight foam trays, designed for frequent travelers and within airline weight limits.

Task Specific Tool Kits

Custom kits or roll carts tailored to your job, keeping tooling costs low and tools ready for any task.

Custom Tool Crib Services

Protect high-value tools with custom foamed protection and SN etching, in your tool crib or Pelican cases.

1 in 3 Businesses Do Not Track Their Tools, Leading to Lost Productivity and Increased Costs.

Global Tool Control is your all-in-one solution for tool and control needs. We design and manufacture CNC-cut shadow foam and provide laser serial number etching. Our turnkey solutions ensure efficiency, safety and reliability in your operations.

TOOL KITS THAT GROW & MOVE WITH YOU

Customization: Tailored solutions to meet specific tool and control requirements.

Efficiency: Streamlined processes that enhance productivity and minimize downtime.

Quality Assurance: High standards in design and manufacturing ensure reliable tools.

Turnkey Solutions: Comprehensive service from design to delivery simplifies project management.

Advanced Technology: Use of CNC-cutting and laser etching for precision and durability.

Cost-Effective: Competitive pricing on all tool kits without compromising on quality.

Expert Design: Access to certified & knowledgeable professionals to craft the perfect tool kits.

FOR EVERY INDUSTRY

Global Tool Control provides expert tool management solutions across diverse industries, including mining, aviation, motor-sport racing, defense, medical, and oil and gas. Our customized services ensure efficient, organized, and secure tool operations.

AVIATION GLOBAL TOOL CONTROL

Foreign Object Debris (FOD) costs the aviation industry \$1.26 billion annually. Misplaced tools or debris can cause serious damage to engines and avionics. Our tool control systems, including serialized tools, shadow foam inserts, and tracking, help prevent FOD incidents, boost safety and minimize costly repairs and downtime.
